

Dr. Gerald Carter

WHERE CAN MATH TAKE YOU?

EVERYONE CAN BE A SCIENTIST

"Math and science are gifts from our collective human history that empower us to think more clearly than even the smartest individual could do on their own. Math and science are not just essential tools that make you smarter, they also spark insights that are truly beautiful and awe-inspiring."

-Dr. Gerald Carter-

DID YOU KNOW?

Math can take you to THE BIG careers! (THE BIG = teaching, higher education, business, industry, and government.)
It is also a lot of fun!

Dr. Gerald Carter is an Assistant Professor in the Department of Evolution, Ecology, and Organismal Biology at The Ohio State University. Dr. Carter uses mathematics, statistics, and social networks to study the behaviors of vampire bats.

Dr. Carter has a BSc from Cornell University and a PhD from the University of Maryland. His research has taken him across the world. He has been a Humboldt Fellow at Max Planck in Germany and a Smithsonian Fellow in Panama. He grew up in Northern New York State.
