

# Dr. Kehinde Salau

## WHERE CAN MATH TAKE YOU?

### EVERYONE CAN BE A SCIENTIST

*"The joy of applied math is it allows practitioners to be immediately effective as quantitative contributors, and then opens doors to deeper knowledge in a chosen applied field (finance, biology, policymaking, you name it). Don't be bashful about walking through as many doors as you want in any field you desire."*

*-Dr. Kehinde (Kenny) Salau-*

### DID YOU KNOW?

Math can take you to THE BIG careers! (THE BIG = teaching, higher education, business, industry, and government.)  
It is also a lot of fun!

Dr. Kenny Salau works as a Data Science Senior Consultant at Cardinal Health in Dublin, Ohio. He uses statistics and machine learning to improve the quality of healthcare data.

Dr. Salau holds a B.A. in Mathematics from St. Mary's College of Maryland as well as a M.Sc. and PhD in Applied mathematics from Arizona State University. Dr. Salau was born in Lagos, Nigeria, and moved to the United States with his family (including twin brother) at 11 years old. He developed a love of mathematics by participating in the International Baccalaureate Program at his high school.
