

## Fall 2016

- Really liked my teacher! She did a great job of teaching the material and she was really nice.
- Ranthony is a super fun, smart person and I loved having her as a teacher.
- This was one of the best math classes I have been in and I was very pleased!
- Ranthony worked hard and her hard work showed in her teaching! She dedicated and inspiring.
- Ranthony was a great instructor and I really enjoyed the class.
- She is awesome! I enjoyed her class and I hated when I left early. Thanks for everything!
- Wonderful teacher. Makes learning fun, she cares about you as a person. Very bright and upbeat.
- This class is well organized, as well as, taught well. Although the pace may be a little rapid at some points, this is a good course and Ranthony does well at what she does.
- This class has really benefitted me with my math skills and Mrs. Ranthony is an excellent instructor. I have never been a fan of math but Mrs. Ranthony has helped me tremendously throughout this course. I probably wouldn't go to the math lab as much if she wasn't so helpful.
